Population Health Perspectives on Value-Based Payment Strategies

Melissa Eddleman, MSW, FL LCSW, MPA - Deputy Population Health Division Director
Susanna Snyder, MA - Maternal Child Health Manager

Learning Objectives

Participants will leave being able to answer the following:

1. How can a population-based approach better serve some groups of Health First Colorado members (e.g. perinatal and behavioral health)?
2. What is the Department of Health Care Policy and Financing (HCPF) doing to improve data collection and transparency to better track and pay for quality?
3. What are the goals and strategies of Value-Based Payment (VBP) models?
4. What are the challenges and opportunities for VBP initiatives to improve care and increase equity?
5. How can I and other community partners engage with HCPF to inform future VBP initiatives?
