

# COLORADO CCBHC QUICK GLANCE

The Certified Community Behavioral Health Clinic (CCBHC) model is a federal initiative launched in 2014, designed to increase access, quality, and coordination of comprehensive mental health and substance use disorder (behavioral health) services.

## Planning Grant Award

Colorado received a one year planning grant in December 2024. HCPF and BHA are working collaboratively with stakeholders to define quality measure and data management processes, certification and provider readiness, and the prospective payment system for demonstration. If awarded and funding identified, the demonstration will begin July 2026.

## CCBHC Required Services:

- \* Crisis services (Walk In & Mobile Crisis Response)
- \* Outpatient mental health and substance use services
- \* Person- and family-centered treatment planning
- \* Community-based mental health care for veterans
- \* Peer family support and counselor services
- \* Targeted care management
- \* Outpatient primary care screening and monitoring
- \* Psychiatric rehabilitation services
- \* Screening, diagnosis and risk assessment

## Demonstration vs Benefit/State Policy

Demonstration is an opportunity to **test** a new strategy for delivering and reimbursing a comprehensive array of services provided in community behavioral health clinics.

A state policy **implements** a benefit long term if it has proven to improve access, quality, and outcomes of outpatient services provided.
